

**VQA WINES ON TAP**

Wine-on-tap is the hottest trend in restaurant wine service across North America right now. Wine on tap reduces the amount of harmful oxygen that comes in contact with the wine, maintains freshness, and is eco-friendly. Cheers to that!

**ENOMATIC WINE SYSTEM**

Aielli proudly uses Enomatic temperature controlled wine preservation system for select premium red wines. The Enomatic wine preservation system is an automated wine dispenser imported from Tuscany, Italy. The Enomatic system makes it possible to sample high-end, expensive bottles of wine that otherwise could not be left uncorked for more than a few days. The system surrounds the wine with Argon gas, thus preventing oxidation.

**ENOMATIC PREMIUM RED**

5oz Cabernet Sauvignon 2014, Caymus Vineyards – Napa Valley	29
